## CELEBRATING SPRING 2011 WITH *HAMAMELIS* SPRING BLOOMING WITCH HAZEL

These outstanding spring bloomers are a sure way to celebrate the end of winter. Beginning in late February, their fragrant winter and spring show extends into mid- to late April. Useful in both formal and naturalized plantings, these underused plants are excellent for forcing all winter or as a cut spring flower branch.

We offer an extensive selection in a range of colors, including 'Arnold's Promise', 'Aurora', 'Barmsted Gold', 'Diane', 'Jelena', 'Orange Peel', 'Pallida', 'Rochester Suberba' and 'Wisely Supreme'. Both field and container plants available.
