

WINDY HILL FARM^{10/26}

NURSERY • ORCHARD • GARDEN SHOP

FALL IS THE IDEAL TIME FOR PLANTING PEONIES, POPPIES, IRIS AND DICTAMNUS

Itob-type Peonies – These crosses between tree peonies and herbaceous peonies are some of the most outstanding hybrids developed. They combine the best qualities of both parents. Several selections available.

Herbaceous Peony hybrids – We have over 30 varieties of field-grown divisions in single, double, semi-double and Japanese-type forms. Extra-large divisions available.

Japanese and Lutea Tree Peony hybrids – They thrive in sun or partial shade, growing up to 4 feet high and 5 feet across, covered with dinner-plate-size blooms in May and June. Unrivaled as a hardy flowering shrub for the Berkshires. Select varieties available.

Oriental Poppies – A classic, long-lived perennial selection for early summer blooms. We have a number of varieties in the full range of orange, red, pink and white.

Iris – Both large- and small-flowered selections, including:

Iris germanica hybrids – bearded iris

Iris siberica hybrids – rugged Siberian iris

Iris ensata hybrids – choice Japanese iris, outstanding in wet soils

A wide selection of species Iris including *I. pumila*, *I. pallida*
'*Variegata*' and *I. setosa*

Dictamnus fraxinella – We have an ample supply of our own field-grown Gas Plants, including the rare white form. This hard-to-find, long-lived perennial is a wonderful addition to the perennial and shrub border. Large clumps available.
